Our Passion for Healing Veterans Through Story.

Whether it's on social media or showcasing your talent and/or creative works at a local farmers' market, we can help.

Fair Publishing Agreements

We help veterans navigate publishing contracts to ensure they retain rights, receive royalties, and avoid exploitation. Whether self-publishing or working with a press, we advocate for transparency and fair compensation.

Paid Speaking and Performance Opportunities

Veterans are invited to share their stories, poetry, music, or art at events, panels, and workshops—where they are compensated for their time and talent.

Creative Licensing and Merchandising

We assist veterans in licensing their artwork, photography, or written content for use in merchandise, exhibitions, or media—ensuring they receive payment and retain creative control.

Royalties and Sales Tracking Systems

We build royalty tracking templates and sales systems for veteran authors and artists, so they can monitor earnings from books, prints, or digital downloads with clarity and confidence.

Grant-Funded Commissions

Through partnerships and grant-funded projects, we commission veterans to create original works—whether for public installations, educational materials, or commemorative media—and pay them directly for their contributions.

Online Storefronts and Promotion

We help veterans set up online shops or feature their work through our platforms, providing marketing support and secure payment systems so they can earn income from their creative output.
